MEMORANDUM FOR: Director of Central Intelligence

SUBJECT: Army HUMINT Collection Statistics [redacted]

25X1

1. Hal Aaron sent these statistics [redacted]

25X1

[redacted] in response to your comments on the subject at the 19 February USIB meeting.

25X1

3. Also, these kinds of IR evaluation statistics should always be viewed with some caution. For example, these particular figures pertain to only 27% of the reports produced [redacted] in 1974 and the origins of the evaluations are lost once machine records are made of them (which is the case here).
